## Pokemon sword strategy guide pdf reddit

images-na.ssl-images-amazon.com/images... I have played and beat fire red. I just need some tips starting off. I have already gotten past the ceremony and now I have to go to my first gym battle. I just wanna know if there's any specific strategy I should take. Anything I should know. I have already watched a couple videos (AustinJohnPlays) and just wanna get some more opinions and thoughts on it. Thanks!EDIT: : I only put Pokemon Sword in the title because I needed to reach the 20 character limit to post this post. I know sword and shield are the same. Lol. I wanna buy a book that has all the Pokemon available in Pokemon Sword and Shield + Expansion Passes for my 7 year old nephew...and me :) Does this even exist?This is What I've seen available for Guide options:Pokemon Sword and Shield Official Galar Region Pokedex (This seems like the best way to go? but its missing the expansion pass +200 Pokemon!!! So I'm pretty disappointed in this missing 1/3 of the Pokemon available)Pokemon Sword and Shield Official Galar Region Strategy Guide Collectors Edition (Read positive comments on this, not sure if this is as good as first book though, can people let me know there thoughts?)Super Deluxe Essential Handbook (Pokemon): The Need-to-know Stats and Facts on Over 800 Characters ( Is this all the pokemon there currently are or is this outdated? Also is this accurate for the mechanics in the video game Sword and Shield or are many things balanced differently?Is there a website that has what I want as an alternative, didn't really see one? Again I'm looking for a book for my nephew website isn't as good for him but still.Please Let me know your guys thoughts, any help is much appreciated!! Hello, Pokemon Reddit!!I just purchased a Switch today as a Christmas present to myself and the first game I decided to get was Pokemon Sword. I have never really played any Pokemon game besides this one and a little bit of Pokemon Go. I would watch my friends play Pokemon all the time though, so I'm not entirely Pokemon stupid. But there are some things that have me flustered.Like, how do I choose which Pokemon to level up and which to keep in my party and etc. Also, should I battle EVERY wild Pokemon that crosses my path? Those are my main questions, but honestly any tips would be super helpful.
